1. OUR VISION

Our vision is to be a preferred services and technology provider to our clients. To create sustainable quality and reliable services from our professional shareholder, suppliers, collaborators and associates, we are committed to conduct our business in a safe, environmentally responsible manner respectful of the laws and customs of the countries we work in.

2. HEALTH AND SAFETY

- As a team we promote a safe working environment, identify and eliminate unsafe conditions and acts from the workplace.
- We train our people and ensure that they are competent and committed to apply our health and safety standards.
- We promote good health and well-being of all within the organization.

3. ENVIRONMENT

- We plan and perform our operations to minimise the impact on the environment by effectively preventing pollution and mitigating harmful risks to the environment.
- We minimise our environmental footprint through reuse and recycling materials to minimise waste.

4. OUR PEOPLE AND COMMUNITIES

- We promote and value diversity and equality within the organization, ensuring a workplace free from discrimination.
- We pursue to deliver the highest level of work quality and practice.
- We build long term partnerships with communities, our business partners and stakeholders to create sustainable improvements in health, safety, the environment and the community.

- We are committed to our core values of fairness, integrity and respect for others.

Who need to comply with this policy?

- Directors, all suppliers, associates, staff and sub-contractors.
- All of the above mentioned people / organisations shall adhere to all procedures, regulations and legislation relevant to our product lines and services.
- This policy will be applied to all places of work, offshore, in transit, domestically and international.

5. OUR GOAL

- Our belief is that we can and should always improve on our efforts to create a safe and healthy workplace which will ultimately help to prevent injuries and illness as well as environmental and community incidents.

6. RESPONSIBILITIES

Directors

- Committed to the health and safety of all staff, sub-contractors and visitors.
- Ensure fair trade agreements are in place for suppliers from other countries
- Provide a safe and healthy work environment free from harassment
- Developing and reviewing HSE policies, procedures, and standards
- Implementing the HSEC policy
- Encourage staff and subcontractors to challenge unsafe or hazardous work practices and to adopt safe and healthy work practices
